RAHUL KUMAR YADAV

Noida sec-15, Delhi | 7368966785 | rrahulkumaryadav347@gmail.com | https://github.com/rrahul009

Profile

Experienced Web Developer with 2.5 years in React.js, Next.js, Express.js, MongoDB, Material UI, Tailwind CSS, and Bootstrap, Ant design.

Passionate about building user-friendly, responsive web applications. Skilled in creating dynamic and scalable solutions, with a focus on clean code and high-quality user experiences. A quick learner and a dedicated team player, always eager to adopt new technologies and best practices to deliver exceptional results.

Experience

MERN Stack Developer | Kloudrac Software Pvt. Ltd. | January 2023 – Present.

Project 1:

Frontend Developer | Ceasefire Express | Apr 2023 - Dec 2023
Technologies: React.js, Material UI, Redux

- Developed and maintained responsive, user-friendly web applications, ensuring a seamless user experience.

- Collaborated with cross-functional teams to implement features using React.js and Redux, enhancing performance and interactivity.

- Utilized Material UI for modern, consistent design and streamlined component development.

- Integrated **Formik and Yup** for managing complex forms and validation, improving form handling and data submission workflows.

PROJECT 2:
FRONTEND DEVELOPER | BUILDER.AI | JAN 2024 - JUNE 2024
Technologies: React.js, Material UI, Redux

- Developed multiple web pages using **React.js** and **Material UI**, delivering responsive and user-friendly interfaces.

- Implemented advanced filtering systems, enhancing search functionality and user experience.

- Managed complex application state with **Redux**, ensuring efficient data flow and consistency across components.

- Wrote unit tests using Jest and React Testing Library to ensure high code quality and maintainability.

PROJECT 3 :
FRONTEND DEVELOPER | NETWORK 18 | JULY 2024 - DEC 2023
Technologies: Next.js, React.js, Server-side Rendering (SSR),

- Developed highly interactive and scalable front-end applications for **Network 18**, utilizing **Next.js** and **React.js** to enhance performance and optimize SEO.

- Implemented **server-side rendering (SSR)** to improve load times and enhance SEO performance for dynamic content, like news articles and media.

- Integrated **pagination** for news and article listings, ensuring efficient data loading and smooth navigation across large datasets.

- Worked closely with backend teams to ensure seamless API integration, focusing on dynamic content display, such as displaying the latest news in real-time.

- Collaborated with design and backend teams to integrate APIs and create seamless front-end features.

Constructed several websites from concept to deployment, including:

 devsmojo.com.   titraitsolutions.com.   wrocus.com.   anbruchit.com

Education

- **Bachelor Of Science (Information Technology).   AMITY UNIVERSITY**

- **Master Of Computer Application.   ACCURATE INSTITUTE OF TECHNOLOGY**

Technical Skill

- **Programming Language   : JavaScript**

- **Query Languages   : SQL , MongoDB**

- **Web Technology   : HTML , CSS , JavaScript , React.js , Next.js , Express.Js ,Redux**

- **Version Control   : Git , Github , Gitlab,**

- **Platforms   : Windows , Linux , MacOS**
